PROFESSIONAL EXPERIENCE

STATISENSE

Data Analyst (Affiliate) | 2025

- Contributed to the OpinionsStatisense database project, supporting large-scale data preparation and reporting.
- Cleaned, validated, and structured datasets to ensure accuracy and consistency.
- Supported smooth data flow for analysis, reporting, and publication.
- Organized datasets to improve accessibility and reduce reporting errors.

Humanity Foundation for Peace and Development (HUFFPED)

(USAID- and WaterAid-affiliated NGO)

Data Analyst & Research Lead (NYSC) | 2024 – April 2025

- Selected as Lead Analyst and Researcher, supporting program operations through data and reporting.
- Produced weekly analytical and performance reports used for planning and decision-making.
- Maintained structured datasets to track field activities, issues identified, and reporting timelines.
- Conducted field-based data collection across Lagos, ensuring accurate documentation and validation.
- Collaborated with the WaterAid Lagos team on WASH data collection, review, and analysis.
- Analyzed datasets from multiple regions to identify trends, gaps, and operational insights.
- Translated complex findings into clear summaries for internal teams and partners.

Osarow Analytics and Data Stories (Personal / Freelance)

Data Analyst & Founder | 2023 – Present

- Founded a freelance data analysis practice delivering operational and performance insights to clients.
- Managed projects end-to-end: data collection, cleaning, analysis, reporting, and presentation.
- Built structured Excel and dashboard reports to support decision-making.
- Developed a data storytelling platform focused on clear visualizations and actionable insights.

- Simplified technical findings for non-technical stakeholders.

ACADwrite Research Services

Research Data Analyst | 2022 – 2023

- Led data analysis and reporting for academic and market research projects.
- Conducted structured data analysis, visualization, and reporting using Excel and statistical tools.
- Designed clear analytical reports and research posters aligned with project objectives.
- Communicated insights effectively to support decisions and publications.

K Analytics

Lead Team Data Analyst | 2020 – 2022

- Led a small analytics team delivering data-driven research projects.
- Designed data collection tools and supported structured data gathering.
- Produced dashboards, visual reports, and summaries for stakeholders.
- Applied statistical methods to convert raw data into actionable insights.
